

Praim solutions to help Banks and Insurance companies to secure data

1

WORKPLACE SECURITY

Secure and manageable endpoints such as Thin Clients, software for authentication and access to workstations, a management console to centrally manage the IT infrastructure.

2

DIFFERENTIATE WORKSTATIONS

Software that allow you to differentiate the graphical interface and the type of company resources that can be reached, based on the user who accesses the workstation.

3

REPLICATE AND SCALE THE WORKSTATIONS

A centralized management console that allows you to create a configuration template to be distributed across the entire endpoint infrastructure.

4

UNIFORM THE WORKING ENVIRONMENT

Software and hardware that allow you to make your device park homogeneous, converting it into a performing and manageable endpoint infrastructure.

5

SUPPORT LEGACY ENVIRONMENTS, HARDWARE AND PERIPHERALS

Hardware that allow you to work with all the peripherals you need, ensuring full compatibility with the tools you use daily.

6

SCHEDULING UPDATES

A centralized management console that helps you organize and automate all tasks in just a few clicks, by saving time.

7

MANAGE HIGHLY DISTRIBUTED WORKSTATIONS

Software and hardware to help you manage the headquarter and remote office devices without the need to define a VPN.

8

GUARANTEE REMOTE ASSISTANCE

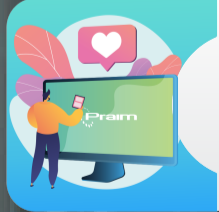

A centralized management console to provide remote assistance quickly and easily to all workstations from a single location.

9

CREATE INFORMATION KIOSKS

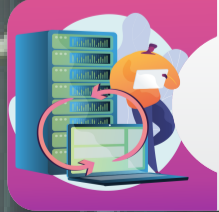

A software with which to create and control information stations and digital signage, in a simple and automatic way.

10

CLEAN AND ELEGANT WORKSTATIONS

Compact and elegant All-in-One devices, with a functional, versatile and high-performance design.

11

HIGH AVAILABILITY

A secondary management console that allow you to maintain continuity of service on your endpoint infrastructure at all times.

12

REDUCE COSTS

Software that allow you to reuse old obsolete devices and hardware that allows you to lower your TCO or avoid new investments.
