

HIGH PERFORMANCE AND SECURE SOLUTIONS FOR THE FINANCE SECTOR

1

OFFER HIGH PERFORMANCE DEVICES

Hardware and software that ensure maximum efficiency, for those who need speed, reliability and work with intensive applications.

2

USE MULTI-MONITOR DEVICES

Hardware that allow users to work in multitasking environments that also require up to 4 monitors.

3

GUARANTEE THE RELIABILITY AND SECURITY OF THE WORKSTATIONS

A centralized management console with controlled access levels, protected and manageable endpoints such as thin clients and software for creating authentication policies, also with multiple factors.

4

CREATE INFORMATION KIOSKS

A software with which to create and control digital signage and information stations.

5

MANAGE HIGHLY DISTRIBUTED WORKSTATIONS

A software or hardware that helps manage the devices of the headquarters and remote offices without having to define any VPN.

6

HIGH AVAILABILITY

A secondary management console that allows you to always maintain continuity of service.
